Visual Rental & Sales

## Media Release

### Current Projects acquires videowallsaustralia.com.au

Australasian Technology company Current Projects are pleased to announce their Visual Rental and Sales division has acquired videowallsaustralia.com.au and has become the solution provider for Orion PDP seamless video wall solutions in Australia.

Orion's latest product released this year represents the latest in seamless plasma screen technology – Multi Plasma Display Panel (MPDP) 4260. The 42" Seamless Plasma Panels are a one of a kind product that offer superior picture quality with the very latest in space-minimising, slim line commercial video wall technology with absolutely no border around each panel. When mounted together they are glass on glass with a total 1.9mm seam gap between the panels to create a very impressive visual display of whatever size and configuration suitable to you. Custom brackets and freestanding stands are available to suit just about any mounting requirements.

Applications for the MDPD include any requirement for clear, large format displays, such as digital signage, control rooms, emergency services, broadcast facilities, as well as the obvious event and entertainment applications.

Orion PDP is the product notable clients world-wide turn to for their large format visual solutions in a range of industries, including high end fashion, retailers, high class casinos, broadcasters, telecommunications carriers, control room facilitators and many more.

Easily integratable, the video wall solutions on offer by Current Projects can be used in all countries and all industries. Talk to us today about adding that 'WOW factor' to your project.
